Tools: Jira, GitHub Projects, Notion, Google Workspace, Microsoft Teams, Microsoft Office, Confluence (Beginner)
AI and Domains: Claude, ChatGPT, Gemini, AI-assisted Frontend, Patch Management, Vulnerability Assessment

EXPERIENCE

Technical Project Manager Sep 2026 - Present
Web3Task Noida, India

- Coordinate about 40 people across 5 product streams, including 2 TPMs, 1 PM, 4 tech leads, 15+ developers, 5 designers and 5+ testers.
- Manage delivery of 4+ client projects for clients including a software company and an NGO, tracking scope, timelines and releases.
- Moved from Games TPM (7-member team) to lead Voice to Notes AI, the main product, within 1 month, shipping releases on Android, iOS and web.
- Write 5+ Product Requirements Documents (PRDs), including 3 internal tools (HRMS, HR Buddy, scrum system), and build their frontends with AI tools.
- Plan release cycles of 15 days for 4 live games and 2 to 4 weeks for Voice to Notes and VPN, triaging P0/P1/P2 issues on 3 GitHub Projects boards.
- Run the daily stand-up and new-joiner induction, and allocate developers, designers and testers by priority and skill.

Business Analyst Intern, Cybersecurity Products May 2026 - Aug 2026
TechBridge Consultancy Services Gurugram, India

- Earned full ownership of 2 enterprise products (tbPatchManager, Vulnerability Assessment) within 1 month, moving up from assisting on 4 products.
- Led a 9-member engineering team (system, frontend, backend, full-stack, DevOps) through sprints, shipping 10+ features across 5 client releases.
- Wrote 20+ Functional Requirement Specifications (FRS) and cut turnaround from 1 full working day to under 2 hours with an AI-assisted workflow.
- Managed 1,000+ Jira issues and built ticket templates that made issue creation 3 to 5 times faster.
- Reported to the CEO through 50+ end-of-day status reports on progress, blockers and risks.
- Received a full-time pre-placement offer (PPO) after 3 months.

PROJECTS

Velvetforge | Web Design, Vercel

- Designed and built a brand agency website (velvetforge.in) alone, from design to domain setup and deployment.

EDUCATION

B.Tech, Computer Science and Engineering Nov 2022 - May 2026
Guru Gobind Singh Indraprastha University Delhi, India
